

The Mission of CUU is

To provide an interactive forum for Unisys clients to develop their IT environments, by participating in strategic and technical information exchange and by influencing suppliers' offerings.

CUU intends

To provide compelling professional and personal reasons for client representatives from multiple levels and disciplines to join and actively participate in CUU.

That Unisys clients, needing to develop their IT environments, recognise that active participation in CUU is a cost effective way of sharing information and experience with peers and suppliers.

CUU will deliver by

Scheduling events that address current and relevant topics for the membership and provide the opportunity for networking with other Unisys users.

Providing an interactive electronic community that will allow members to enter into relevant discussions with fellow members, seek answers to technical issues and share best practice.

Producing a monthly newsletter for members that include updates from Unisys and Partners

Providing an avenue for raising unresolved issues with Unisys
